

MUNICIPAL ELECTRIC SYSTEMS OF OKLAHOMA

Underground Residential Distribution (URD) Problem Solving 101

Underground Residential Distribution (URD) Problem Solving 101 is a two-day class designed to help Public Power professionals who work on URD System Faults.

Participants can expect to leave the training with improved skills in three areas:

- **Locating** faulty cable using different methods, for example, radar and sonar equipment
- **Testing** isolated cable to ensure proper grounding
- **Repairing** damaged or faulty cable

Your employee will work closely with professionals from other communities in both field and classroom settings. Both journeymen and apprentice lineworkers will gain valuable information to help deal with situations that will come in your city.

August 22-23, 2018

Kingfisher Electric
313 South 13th Street
Kingfisher, Oklahoma
