Metering Basics

July 12, 2017

Edmond Electric/Administration Building

Both industry veterans and those beginning a career have a lot to gain from this one-day training course. Beginning with single phase meter application and moving through all aspects of metering field – self-contained and CT metering.

Participants will have both classroom and hands on training (wiring of metering applications). All MESO training is safety driven, so your employees will learn safe work practices.

Registration deadline is July 5, 2017

Class size is limited - register today!

Metering Basics

July 12, 2017

Edmond Electric/Administration Building

COST: \$99.00 per person (includes training, metering booklet and lunch)

Participants will need leather gloves, pliers, straight blade screwdriver and knife

PRESENTING PARTNERS: MESO (Municipal Electric Systems of Oklahoma)
Edmond Electric

INSTRUCTOR: **Brett Griffin** brings more than 20 years of experience to this training course. He has held numerous positions with Edmond Electric since beginning his career in 1993. He has served as service crew supervisor since 2011. In addition to outstanding experience and technical knowledge, he has a keen focus on safety.

FACILITATOR: **MESO's Tom Dougherty**, director, training and safety. A public power systems veteran with three decades of service, Tom's experience includes being a serviceman, lineman, lead lineman, and crew chief. He's worked with both overhead and underground systems and is governed by one core basic – safety first.

COURSE AGENDA:

8:00 a.m. – 8:30 a.m.	Registration
8:30 a.m. – 10:00 a.m.	Class Time
10:00 a.m. – 11:45 a.m.	Field Work
